

ANT-XV/2 processing log

a) Original data

Original Parasound data were copied from 10 CD-ROM and 137 computer tapes.

b) Statistics

Data volume	: 23.2 GB
Total number of files	: 9922

c) Navigation

The navigation is the original Parasound navigation recorded at expedition time.

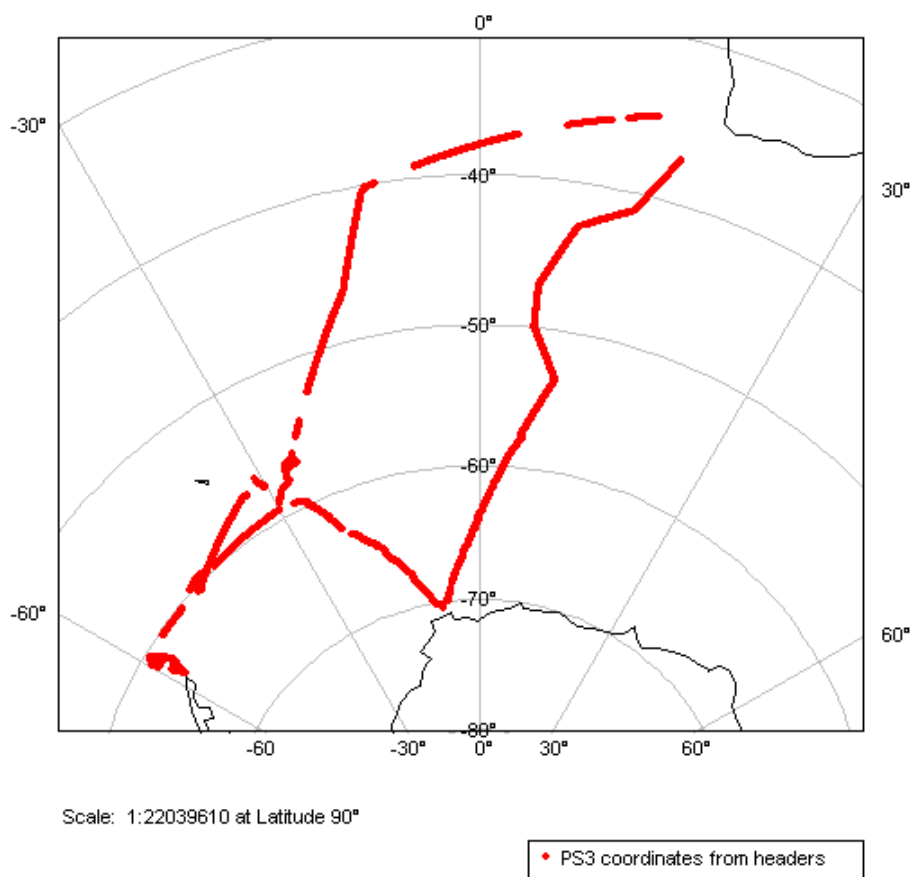

Figure 1: Map showing the positions (red points) extracted from first headers of PS3 files.

d) Processing

No processing was performed. The data is saved 'as logged', i.e. time stamps and/or navigational data may be incorrect.

e) Miscellaneous

- The meta-information was extracted from Parasound headers.
- Time stamps are not equidistant and only present, where Parasound data were logged.
