

Fig. 3. Seismic profiles from 2004 and coring locations of surface sediments taken between 2002 and 2005. Bold lines (A–C) indicate seismic profiles shown in [Figs. 8–10](#). The stars indicate the locations of the Saint Naum (N) and Tushemisht (T) springs, suppliers of ground water from Lake Prespa to Lake Ohrid.

Note !

Fig. 3 was erroneously not printed in the paper;

Fig. 2 A+B was printed twice instead.
